Understanding Technology and Data

Swarup Kumar Sahoo

Computer Science Engineer | Java Springboot | React | MongoDB
Bhubaneswar, Odisha, India

Summary

As an ambitious undergraduate student specializing in data analytics and full-stack development, I am enthusiastic about diving into the tech industry. My academic journey has laid a solid foundation in data analysis, programming, and web development. I have already gained practical experience through personal projects and internships, honing my skills in transforming data into actionable insights and creating user-friendly web applications.
